## Requirement 10.6.1

Review the following at least daily:

- All security events.
- Logs of all system components that store, process, or transmit CHD and/or SAD, or that could impact the security of CHD and/or SAD.
- Logs of all critical system components.
- Logs of all servers and system components that perform security functions (for example, firewalls, intrusion detection systems/intrusion prevention systems (IDS/IPS), authentication servers, ecommerce redirection servers, etc.)

### Top rules for 10.6.1 requirement

| Rule ID | Description |
|---|---|
| 61618 | Sysmon - Suspicious Process - svchost.exe |
| 61634 | Sysmon - Suspicious Process - taskhost.exe |
| 61632 | Sysmon - Suspicious Process - smss.exe |

## Requirement 10.6

Review logs and security events for all system components to identify anomalies or suspicious activity

### Top rules for 10.6 requirement

| Rule ID | Description |
|---|---|
| 61104 | Service startup type was changed |

## Requirement 11.4

Use intrusion detection and/or intrusion prevention techniques to detect and/or prevent intrusions into the network. Monitor all traffic at the perimeter of the cardholder data environment as well as at critical points in the cardholder data environment, and alert personnel to suspected compromises. Keep all intrusion detection and prevention engines, baselines, and signatures up to date.
